#### ***Allowable Subject Matter***

Claims 1, 3, 6, and 32-33 allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the method for operating an internal combustion engine as claimed, and particularly including operating at least one exhaust or intake valve during a first operating condition of a transmission, wherein said first operating condition is when the transmission is at or based on a first transmission oil temperature; deactivating said intake or exhaust valve during a second condition; and including the remaining controls of claims 1 and 32, respectively. Please note that "during an operating condition" in claim 1 is interpreted as "during a time when the transmission is at an operating condition."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
